Re: Location of Utilities in the
County Road Right-Of-Way

Dear Jonathan,

Please allow this letter to serve as the County's permission to allow the location of utilities in the County's road right-of-way. This permission also gives the City of Bryant the right to access the county's right-of-way to make any needed repairs to the utility lines. However, the County fully expects the City, or any contractor, to bear the cost of repairing the road and/or right-of-way to a condition that is as good as, or better than, what it was prior to the work on the utility lines. The City, or any Contractor, would need to contact the Saline County Road Department prior to engaging in any work and, if necessary, get any required permits and/or provide a maintenance bond in favor of the County.

If you have any questions, or need anything, do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink that reads 'Jeff Arey'.
