MAYOR (Signature)

ITEM HISTORY (Previous Council reviews, action related to this item, and other pertinent history)

Residents of Springhill Manor West Subdivision have been vocal to the city on stormwater issues. The proposed scope of work is a design to eliminate this section of worries. his area remains wet the entire year causing erosion to yards and street infrastructure. The scope of work goes beyond city boundaries to Hurricane Lake Estates where the water discharges.

ITEM COMMENTARY (Background discussion, key points, recommendations, etc.) Please identify any or all impacts this proposed action would have on the City budget, personnel resources, and/or residents.

Task Order #2 from DCI and a project area map. The project description is "Stivers Drainage Improvement." The task order includes full drainage design to include possible down stream improvements, easement acquisition, boundary and survey. We did not include a bid phase because we will be performing the work in-house.

DCI has an active "Master Service Agreement" with the City, which waives the bidding requirement. which waives the bidding requirement. My opinion is to set a do not exceed PO for \$80,000.00.

(This section to be completed by the Mayor)

ACTION PROPOSED (Motion for Consideration)

Motion to approve or deny the scope of work.

Task Order #2 – Stivers Drainage Improvements

DATE: May 15, 2024

1. PROJECT DESCRIPTION

DCI has been requested to perform survey and design services for the City of Bryant along Stivers Blvd. A drainage analysis will be necessary to determine the appropriate improvements. The subject area has a low spot in the road that needs to be directed to the existing stream and determine the cleanout necessary for the stream to adequately handle the flow.

2. SCOPE OF SERVICES

A. Topographic & Boundary Survey

DCI will provide a current Boundary Topographic Survey for the subject area. The survey will be prepared to Arkansas State minimum standards and drawing will include the following information:

- i. The area, dimensions, and locations of parcels in the areas including and adjacent to the drainage improvements.
- ii. Legal description of the parcel, and land area.
- iii. Existing improvements on and within 25 feet of the subject property and including adjacent streets.
- iv. Existing easements and rights-of-way, alleys, and streets of record of which the surveyor is made aware or is shown in the title commitment or abstractor research acquired by DCI.
- v. Observed evidence of encroachments from or over adjacent property lines and easement lines.
- vi. Locations of available public utilities as evidenced by above ground features, utility company markings, private utility locator markings, and other utility plans or maps provided to DCI.
- vii. Storm drains and sanitary sewer structures of the project area, size, and material. / Storm drains and sanitary sewer structures within the project area with existing flowlines, size, material and direction of flow.
- viii. One-foot contour intervals on and within 25 feet of the subject property.
- ix. Trees of 6 inches and above within the project area.
- x. Flood Plain limits digitized from available FEMA maps, or DFIRM data, if applicable.
- xi. Channel and storm system data downstream of subject area for drainage modeling.
- xii. Zoning setbacks and requirements as per zoning regulation for the subject area.
- xiii. The Surveyor's certification prepared for the benefit of buyer, seller, mortgagee and title companies.
- xiv. Vicinity map.

The fee for providing the Boundary and Topographic Survey outlined above is \$21,000.00, lump sum.

B. Drainage Design Plans and Specifications

- i. DCI will perform a drainage analysis to develop design options for improving drainage conditions without adverse effects to the downstream areas.
- ii. Prepare working drawings:
 - Demolition Plan.
 - Grading and Drainage Plan.
 - Plan and profile plans.
 - Utility Coordination Plan.
 - Site Dimensioning Plan.
 - Erosion Control Plans (three phased plans).
- iii. Plans will be submitted to the City for review at 30%, 60%, 90%, and 100% design phases.
- iv. Provide a site walk through review meeting after 60% plans have been submitted.
- v. Provide written specifications for design work produced by this office and coordinate with your architect / your office for comprehensive a project manual.
- vi. Prepare an Opinion of Probable Cost using the City's format with 60%, 90%, and 100% plan submittals. Opinion of Probable Cost to include:
 - Estimated Quantities
 - Unit Costs
 - Total Construction Cost
- vii. Prepare a project design time schedule and update as required to establish a schedule for the required submittals.
- viii. Attend meetings as requested by the City.

The fee for the Drainage Design Plans and Specifications services outlined above is estimated to be between \$32,000 and \$39,000 and will be charged hourly not to exceed the maximum estimated range.

C. Easement Exhibits

- i. Prepare easement exhibits for adjoining private properties as may be required to construct the project.

The fee for providing the above Easement Exhibits is \$600 per exhibit and 28 easements are estimated for this project to \$16,800.

3. COMPLETION SCHEDULE

The schedule for this will be determined at the kick-off meeting.

4. COMPENSATION

DCI will prepare and submit invoices to for services the City at completion upon completion of the follow project milestones; topographic and boundary survey, 30%, 60%, and 100% designs. Schedule of salary ranges included in section 4.b of the Master Services Agreement executed on 01/08/2024 will apply to this task order. Fees for additional services that become necessary during the course of this project may be arranged on an hourly or negotiated fee basis, whichever is most appropriate for the specific tasks required.

5. REIMBURSABLE EXPENSES

- A. Abstractor research necessary to complete the survey work and to properly identify adjoining ownership entities, easements, dedications and abandonments of record. (\$800)
- B. Utility location services to be provided by ArkUps to locate underground utility lines within the project work area. (\$1200)
- C. Mileage (\$400)

MASTER SERVICES AGREEMENT
BY AND BETWEEN

DEVELOPMENT CONSULTANTS, INC.
2200 N. RODNEY PARHAM ROAD, STE 220; LITTLE ROCK, AR 72212

AND

THE CITY OF BRYANT, ARKANSAS
PUBLIC WORKS DEPARTMENT

THIS AGREEMENT entered into as of this 8TH day of JANUARY 2024, by and between Development Consultants, Inc., a corporation organized and existing under the laws of the State of Arkansas, hereinafter referred to as "DCI" and City of Bryant, Arkansas, hereinafter referred to as the "CITY".

WHEREAS, the CITY is in the business of public services, and has selected DCI under an Annual Statement of Qualifications process to render design and other engineering services, including property surveys and descriptions and the preparation of drawings and specifications and other contract documents suitable for obtaining competitive bids.

WHEREAS, DCI shall be responsible for the professional quality, technical accuracy, timely completion, and coordination of such professional services as may be necessary to accomplish work required to be performed under this agreement.

NOW, THEREFORE, parties hereto do mutually agree as follows:

1. SCOPE OF SERVICES. DCI shall perform, as requested by the CITY and accepted by DCI, the services outlined in Task Order(s) entered into under this agreement. DCI shall furnish all necessary management, supervision, personnel, equipment, tools, materials, and supplies (except as may be otherwise stipulated in the Task Order) reasonably necessary to provide the work as outlined in the Task Order.
2. TIME PERFORMANCE AND COMPLETION DATE. The services of DCI are to commence upon the date of the execution of the applicable Task Order and to follow the schedule outlined therein.
3. FORCE MAJEURE. In no event shall either DCI or the CITY be held responsible for delay caused by or is the result of causes beyond the control of the other party due to an occurrence commonly known as a "force majeure," including, but not limited to: acts of God, fire, flood, or other natural catastrophe; acts of any governmental body, labor dispute or shortage, national emergency, insurrection, riot, or war.
4. COMPENSATION. The CITY shall compensate DCI for services in such a manner as described in the applicable Task Order. Payments shall be negotiated and agreed upon in the Task Order as one-time or partial payments at increments detailed in the applicable Task Order.

- a. **Estimates.** Any estimates provided for cost of construction, financing, and acquisition of land and rights-of-way shall be made in accordance with good engineering practices and procedures. It is understood, however, that **DCI** has no control over construction costs, competitive bidding, and market conditions, nor over costs of financing, acquisition of land or rights-of-way, and **DCI** does not guarantee the accuracy of such cost estimates as compared to actual cost or contractors' bids.
- b. **Salaries.** The following schedule covers the classification of personnel and the salary rate for all personnel anticipated to be assigned to this project for the year 2024.
