A noncommercial message may, in whole or in part, substitute a commercial message on any sign, provided all requirements of this Ordinance and other applicable regulations are met. This Ordinance is not intended in any way to regulate the message or content of any form of temporary signage.

3.02 – On-Premise/Off-Premise Distinction - The distinction between on-premise and off-premise signage applies only to permanent signage with a commercial message. It does not apply to noncommercial messages or temporary signs.

3.03 – Sign Area Measurement - When calculating the surface area of any sign, a maximum of three (3) distinct and abutting "Areas" made up of squares or rectangles may be used to encompass the extreme limits of the writing, representation, emblem, or other display, together with any material or color forming an integral part of the background of the display or used to differentiate the sign from the backdrop or structure against which it is placed. The minimum size for an "Area" is one square foot. Calculations shall be based upon measuring the largest sign face. No more than two (2) sign faces shall be permitted. Calculations shall not include the pole support structure for signs exceeding ten (10) feet in height. For freestanding signs, only one side or sign face shall be used to determine the area.

3.04 – Height - When determining height, the average established ground level beneath the sign shall be used for measurement. Where the elevation of a street curb or sidewalk is higher than the average established ground level, height shall be measured from the elevation of the street curb or sidewalk. Any berm or fill greater than one (1) foot tall placed at the base of the sign shall not be considered the average established ground level.

3.05 - Setback Requirements

- A. No Sign shall be erected or maintained except in conformity with the following setback requirements:
 - 1. Front: Signs shall be set back a minimum of ten (10) feet from back of curb, edge of roadway surface, or street right-of-way, whichever is greater.

- B. Every part of the light source of any illuminated sign shall be concealed from view from vehicular traffic in the public right-of-way or adjacent property. The light shall not travel from the light source directly to vehicular traffic in the public right-of-way or adjacent property, but instead shall be visible only from a reflecting or diffusing surface.
- C. This provision shall not apply to neon tube lighting or electronic message centers operating in accordance with this Ordinance.
- D. Backlit Illuminated Awnings- Unless expressly provided otherwise in this Ordinance, awning signs may be illuminated, including without limitation by backlighting.

3.07 - Changeable Copy - Unless otherwise specified by this Ordinance, any sign herein allowed may use manual changeable copy or electronic message centers as follows:

- B. Electronic message centers are not allowed in any residential zoning district.
- C. All electronic message centers must be equipped with automatic dimming technology which automatically adjusts the sign's brightness in direct correlation with natural ambient light conditions.
- D. The light emitted by an electronic changeable copy sign shall not exceed a brightness level of 0.3-foot candles above ambient levels as measured by a foot-candle meter at the distance and using the method described below.
 - 1. The reading shall be taken with the meter aimed directly at the digital sign at a distance of 150 ft or neighboring property line, whichever is less.
 - 2. Measurements of ambient light and sign output may be taken at any time. Nighttime measurements shall be taken no less than 30-minutes past sunset and no more than 30-minutes prior to sunrise.

3. Ambient light shall be determined using a foot-candle meter at the appropriate distance as indicated in this Section while the electronic changeable copy sign is off or displaying all black copy. Increased ambient light caused by the electronic changeable copy sign shall be determined by using the same meter at the same location after causing the electronic changeable copy sign to show full white copy. If the difference in the two (2) readings is greater than 0.3-foot candles, then the light emitted by the electronic changeable copy sign exceeds the level authorized by this Section.

3.08 - Sign Projections from Buildings - Signs attached to and wholly supported by a building shall not project more than eight (8) feet from any building and the bottom of such sign shall not be less than ten (10) feet above the sidewalk or fourteen (14) feet above a vehicular right of way and shall not project into the public right-of-way.

3.13 – Abandonment - Abandoned signs shall be required to be removed. For signs which are legally permitted and conforming, removal shall consist of removal of any sign message. Signs which are legally nonconforming or otherwise nonconforming, removal shall consist of total removal of the sign including all sign support structures.

Excluding billboards, a sign shall be considered abandoned when the building or lot/parcel upon which the sign is located is no longer occupied and vacant or actively being marketed for sale or lease for a period of more than ninety (90) consecutive days.

VI. Section Six: Administration and Enforcement

6.01 – Administrative Official

- A. All sign permits shall be issued by the Administrative Official or his/ her designee. The Director of Community Development is the Administrative Official for the purposes of this Ordinance.
- B. The Administrative Official or his/ her designee is empowered, upon presentation of proper credentials, to enter or inspect any building, structure, or premises in the City for the purpose of inspection of a sign and its structural and electrical connections to ensure compliance with all applicable codes and ordinances. Such inspections shall be carried out during business hours unless an emergency exists.

6.02 - Variances

- A. A variance for height, location, type, etc. may be requested. No area variance may be requested.
- B. Requests for sign variances shall be in writing and shall be submitted along with the sign application. Such a request shall demonstrate that special conditions or circumstances exist that are not applicable to other lands, structures, or buildings such that a literal interpretation of the ordinance would result in an undue hardship.
- C. The Board of Zoning Adjustment shall review the request to determine if the variance should be granted and may grant or deny the request.
- D. If the Board of Zoning Adjustment denies the variance or takes no action on the request within 30 days following the variance request appearing on its agenda, the variance shall be deemed denied. The applicant may then appeal the decision to the City Council. The appeal must be submitted to the Planning Department no less than thirty(30) working days from the date of the Planning Commission's decision or the deemed denied date whichever may apply. In order to be placed on the City Council agenda, the appeal must be submitted no less than eleven (11) days prior to the City Council meeting. If the decision is appealed but it is within the 11 days prior to the next City Council meeting, it shall be placed on the following month's regularly scheduled City Council meeting agenda.
- E. A variance may be granted only when the requirements noted above have been met. The Board of Zoning Adjustment or City Council shall grant only the minimum variance required to make possible the variance request, provided that such variance will be in harmony with the general purpose and intent of the ordinance and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.
- F. Fees shall be submitted and paid prior to review of the application. All fees are non-refundable. The fee shall be set in accordance with a schedule of fees adopted by the City Council. If no schedule of fees is adopted, following adoption of these regulations, the fee shall be two hundred fifty dollars (\$250).

6.03 – Alternative Signage Plan

- A. An alternative signage plan may be used where impractical situations would result from this Ordinance. Alternative locations, size or quantity may be justified due to topography, utility easements, lot configuration or subdivision (particularly with respect to a shopping center), or location and size of pre-existing development. Also, the proposed use or collection of uses may not be captured by the spirit and intent of this Ordinance, justifying an Alternative Signage Plan. Such plans shall require the approval of the Planning Commission.
- B. Application shall be made in the same manner as prescribed in §203. The application must additionally include a written letter of justification for the request detailing how the application meets the approval criteria. No application may be accepted without inclusion of a letter of justification.

- D. At least one of the following conditions shall be met in order for an Alternative Signage Plan to be considered for approval:
 - 1. The applicant must show that installation of signage per this Ordinance while meeting other site-specific constraints as listed above would put the site in direct violation of other City Ordinances or State or Federal regulations, under any practical site layout configuration.
 - 2. The use(s) and/or architectural elements proposed for the site (as already approved by the Planning Department) are such that a standard sign plan under this Article would be considered not in keeping with the code and fail to meet the general purpose of the code outlined in this Ordinance.
 - 3. The sign is at least fifty (50) years old and can be determined to have important historic significance by the Administrative Official as being a historically important place, historically important business or entity, or embodying a design or features of historical importance based upon generally accepted historic preservation professional practice standards.
 - 4. Approval of the Alternative Signage Plan would result in a preferable outcome to the residents of Bryant in contrast to only advancing the property or economic interests of the applicant.

6.04 - Violations

- A. In cases of emergency, the Administrative Official or his/her designee may cause the immediate removal of a dangerous or defective sign without notice. Signs removed in this manner must present a hazard to the public safety as defined in the local building or traffic codes.
- B. In cases of illegal signs placed in the public right- of-way, or if banners or temporary signs become faded, worn or tattered; or have become detached from the structure designed to support the signage, the Administrative Official or his designee may cause immediate removal of the sign without notification of the owner of the sign.

6.05 - Removal of Signs by the Administrative Official

- A. Signs located within the public right-of-way or which fail to comply with the written orders of removal or repair are subject to removal, the Administrative Official or his designee may order removal of the sign in question. After removal, a notice shall be mailed to the sign owner stating the nature of the work and the date on which it was performed and demanding payment of the costs as certified by the Administrative Official or his designee. Alleged violators shall have sixty (60) days from the date of said notice in which to appeal to the Planning Commission. If the amount specified in the notice is not paid within sixty (60) days of the notice and no appeal to the Planning Commission has been formally lodged, it shall become an assessment upon a lien against the property of the sign owner, and will be certified as an assessment against the property together with a ten percent (10%) penalty for collection in the same manner as the real estate taxes
- B. The owner of the property upon which the sign is located shall be presumed to be the owner of all signs thereon unless documented facts to the contrary are brought to the attention of the Administrative Official or his designee, as in the case of a leased sign. For purposes of removal, the definition of sign shall include all embellishments and structures designed specifically to support the sign.
- C. Removed signs shall be stored at a location designated by the sign Administrative Official or his designee pending return to the owner(s). Signs will be stored in such a manner as to minimize damage to them. The sign Administrative Official or his designee will notify the owner of all removal costs and the procedures for retrieving the removed sign(s).
- D. Temporary signs located within the street right- of-way will be removed without notice and stored for 30 days pending return to owners.

6.06 - Penalties

- A. A violation of this Article shall be deemed a violation and shall be punishable by fine. Fines for a violation shall not be less than fifty dollars (\$50) and no more than two hundred dollars (\$200) per day the violation continues.
- B. If a second offense occurs within twelve (12) months of the prior offense, the fine shall be no less than one hundred dollars (\$100) per day the violation continues.
